

Specifications		
Model name	MP-WU8101W (White)	MP-WU8101B (Black)
Display system	3LCD	
Display device	Size of effective display area 0.76" aspect ratio 16:10 2,304,000 pixels H: 1,920 × V: 1,200 (WUXGA)	
Lens	Optional (All the projection lenses are sold separately.) Motorized (except for the option lens FL-720 / FL-701)	
Zoom	Motorized	
Focus	Motorized	
Lens shift	Motorized (V, H)	
Light source	Laser diode	
Screen size	30 – 600 inch (100 – 350 inch for the ultra short throw fixed lens FL-720, 60 – 600 inch for the ultra short throw lens UL-701)	
Light output	Brightness*1 10,000 lm Center lm*2 10,500 lm	
Contrast ratio (full white / full black)*1	3,000,000 : 1	
Displayable scanning frequency	Horizontal 15 – 106 kHz Vertical 50 – 120 Hz	
Display	Computer WUXGA*3 (max.) *Native resolution is WUXGA. 4096 × 2160*4 (max.) *Native resolution is WUXGA.	
Resolution	Video Mini D-sub 15-pin connector × 1	
Terminals	MONITOR OUT Mini D-sub 15-pin connector × 1 VIDEO IN RCA connector × 1 HDMI® IN HDMI® connector × 2 (HDCP compliant) HDMI® OUT HDMI® connector × 1 (HDCP compliant) 3G-SDI BNC connector × 1 HDBaseT™ RJ-45 connector × 1 DisplayPort™ DisplayPort™ × 1	
AUDIO IN	3.5mm (stereo) mini connector × 1, RCA Connector (L, R) × 1	
AUDIO OUT	3.5mm (stereo) mini connector × 1	
CONTROL IN (RS-232C)	D-sub 9-pin connector × 1	
LAN	RJ-45 connector × 1	
WIRELESS	USB type A × 1 (The separately sold USB wireless adapter is necessary for this function.)	
REMOTE CONTROL IN	3.5mm (stereo) mini connector × 1	
REMOTE CONTROL OUT	3.5mm (stereo) mini connector × 1	
Network	Wired 100BASE-TX / 100BASE-T Wireless (Option*5) IEEE 802.11a / b / g / n / ac	
Operating temperature	0 – 45°C (32 – 113°F) at altitudes from 0 – 1,600 m (0 – 5,249 ft)*6 The brightness of light source may be reduced automatically over 35°C (95°F).	
Operating humidity	10 – 80% (non-condensing)	
Power requirements	AC 100V – 120V (50 / 60 Hz), 7.3A, AC 220V – 240V (50 / 60 Hz), 3.6A	
Power consumption	AC 100V – 120V: 720W, AC 220V – 240V: 680W	
Standby mode power consumption	Less than 0.5W at saving mode*7	
Standard outside dimensions (W x H x D)	585 mm × 242 mm × 444 mm (23.0" × 9.5" × 17.5") (Including protruding parts), 582 mm × 215 mm × 431 mm (22.9" × 8.5" × 17.0") (Excluding protruding parts)	
Weight	Approx. 18.6 kg (41.0 lbs.) (Excluding lens)	
Accessories	Remote control with two AA batteries, Power cord, User's manual, Security label, Lens hole cover, Terminal cover	
Optional parts	USB wireless adapter USB-WL-SG*8 Air filter UXA3482	
Option lens	FL-720 (Ultra short throw fixed lens) UL-701 (Ultra short throw lens) FL-701 (Fixed short throw lens) SL-712 (Short throw lens)	
Mounting accessories	HAS-9110 (Bracket for fixing mount) HAS-204L (Standard adapter for fixing mount) HAS-404U (Ceiling mount with 6-axis adjustment)*9	

*1: When PICTURE MODE is set to DYNAMIC, DYNAMIC BLACK is ON and LIGHT OUTPUT is set to Normal 100%, attached projection lens is ML-713, zoom position is WIDE (max.) and the lens shift position is center. *2: It is a value calculated using the brightness measured in the center of the screen. The measurement conditions are as follows. LIGHT OUTPUT is set to NORMAL 100%, PICTURE MODE is set to DYNAMIC, DYNAMIC BLACK is ON, attached projection lens is ML-713, zoom position is WIDE (max.), and the lens shift position is center. *3: WUXGA (60 Hz) Reduced Blanking only. *4: Supported on the HDMI®, HDBaseT™, and DisplayPort™ terminal. *5: Optional wireless adapter is needed. *6: 0 – 40°C (32 – 104°F) at altitude from 1,600 m to 3,048 m (5,249 ft to 10,000 ft). *7: SAVING mode disables the functions of MONITOR OUT, AUDIO OUT, speaker sound, network communication, RS-232C control except POWER ON command, etc. in standby. *8: The availability of the USB-WL-SG varies depending on the country and the region. *9: HAS-404U is used on a projector with the ultra short throw fixed lens FL-720 attached to when it is installed at the ceiling mounting position.

Environment

- Long Life mode
- No use of mercury lamp

—Design and specifications are subject to change without notice.

—The projected images and comparison photos in this catalog are simulations. • LCD panels, polarizers and other optical components and cooling fans may need replacement after prolonged usage. For more details, please consult a sales representative. • Do not use in places where there is a lot of water, dampness, steam, dust, soot or tobacco smoke. This may result in fire or malfunction. • Optical components (light source, LCD panel, polarizing plate, PBS [polarizer beam splitter]) have limited service lives. They must be repaired or replaced if they are used for a long period of time. • During use and immediately after use, do not touch anywhere near the vents as these parts are extremely hot. • Optical components other than the light source: If the projector is used for six hours or more per day, they may need to be replaced in less than a year. • LCD panel: If the projector is used continuously for six hours or more, its replacement cycle may be shortened. • Each product may have differences of color, brightness and focus due to manufacture variation. • Blu-ray Disc™, Blu-ray™, and 4K Ultra HD Blu-ray™ are trademarks of Blu-ray Disc Association. • Creston® and Creston RoomView® are registered trademarks of Creston Electronics, Inc. in the United States and other countries. • DICOM® is the registered trademark of the National Electrical Manufacturers Association for its standards publications relating to digital communications of medical information. • HDMI®, the HDMI® Logo, and 4K Ultra HD Blu-ray™ are trademarks of Blu-ray Disc Association. • Laser products are registered trademarks of Laser Institute of America, Inc. in the United States and other countries. • DisplayPort™ is trademarks owned by the Video Electronics Standards Association (VESA®) in the United States and other countries. • Extron® is registered trademark of RGB Systems, Incorporated. • All other trademarks are the properties of their respective owners. These projectors are a CLASS 1 LASER PRODUCT (IEC / EN 60825-1:2014).

Ce projecteur peut se transformer en PDS si un objectif interchangeable ayant un ratio de projection supérieur à 2.8 est installé. Consultez le manuel pour le faire. (See eligibility and its distance a risque avant toute utilisation. De telles combinaisons de projecteur et d'objectif sont destinées à un usage professionnel uniquement et ne sont pas destinées au grand public.)
Dieser Projektor kann als PDS werden, wenn ein Wechselobjektiv mit einem Throw-Ratio größer als 2.8 installiert wird. Vor Inbetriebnahme siehe Objektive-Liste und Sicherheitsanforderungen.
Dit projectie apparaat kan worden omgezet tot een PDS-apparaat indien een objectief met een werpverhouding groter is dan 2.8 wordt geïnstalleerd. Zie de objectieflijst en de veiligheidsvoorschriften voor gebruik.

Laser Projector

MP-WU8101B MP-WU8101W

Pursuit of detail in image quality and better visibility 10,000 lm 3LCD Laser Projector

*Projected images are simulations

High Reliability and Stability

Long Life 20,000-hour Laser Light Source

Maxell's laser light source projectors have 20,000 hours*1 of light source life. Use for 50,000 hours*1 can be achieved in LONG LIFE 2 mode. Also, users may select their desired operation mode. Furthermore, in addition to the light source, the phosphor wheel is also dust resistant, suppressing brightness level reduction by preventing dust from coming into contact with the optical parts. Also, this model includes a hybrid filter that requires less maintenance and cleaning, making 20,000 hours of continuous operation possible. Users can enjoy using the projector for long periods of time while maintaining its brightness. Additionally, though the MP-WU8101W / B is a 10,000 lm projector, it has achieved a low noise of 38 dB. This is an suitable feature for presentations and seminars.

*1 For laser light source. The value is an estimate and may vary depending on the use environment or use condition.

LIGHT OUTPUT	Brightness*2	Light source life*3	Noise*4
NORMAL	10,000 lm	20,000 hours	38 dB
LONG LIFE 1	7,500 lm	30,000 hours	
LONG LIFE 2	5,000 lm	50,000 hours	
WHISPER	5,000 lm	20,000 hours	33 dB

*2 These are reference values and may vary depending on products.

*3 The values are an estimate and may vary depending on the usage environment or use condition.

*4 Reference values when used in an ambient temperature of 23°C. The noise level varies by the projector model, installation environment, and use condition.

Brightness Deterioration Comparison between Light Output Modes

* This is for illustrative purposes only.

High Image Quality

Contrast Optimizer

This is Maxell's original technology that enhances the contrast according to the brightness of the input image and improves visibility. The dynamic range of each part of the image is stretched to display an image with a wider range of expression of blackouts and bright areas of the image.

* This function is disabled when the EDGE BLENDING function or the PnP / PinP function is enabled.

* This function is disabled when HDR DETECT is enabled and HDR signal is input.

* Even if this function is set to ON, this function may be disabled depending on the PICTURE MODE setting.

* Comparison photos are simulations.

HDR Detect

Receives the 4K HDR signals*5 and expresses rich tones in dark and bright areas of the scene.

* Comparison photos are simulations.

*5 Supports 4K HDR signals : Converted to WUXGA (1920 x 1200) resolution size.

4K signals can be received from HDMI®1, HDBase™, and DisplayPort™.

* Comparison photos are simulations.

LINEUP

* The lens of the projector is sold separately. * Local availability may be limited.

MP-WU8101B
WUXGA 10,000 lm

Installability and System Features

Edge Blending & Warping

The multiple projectors allow to project one image on a huge curved screen by using the geometry correction and the edge blending functions simultaneously.

* Additional equipment may be required for this feature.

* If geometry correction is required, please download Projector Warping Tool from the website (<https://proj.maxell.co.jp/en/>).

4K Ready *6

The projectors allow 4K signal input on HDMI®1, HDBase™, and DisplayPort™ input terminals. You can enjoy much better viewing experiences with a 4K Ultra HD Blu-ray™ player or other devices.

HDMI® OUT

Transfers the input signal on the HDMI®1 or HDBase™ terminal to another device. It allows to connect the projectors*4 in series in order to project the same image simultaneously without using an HDMI® splitter or switcher product.

*6 Up to 4 projectors can be connected in series for the HDMI® OUT terminal of the projector. The number of devices that can be connected varies depending on the HDCP version, the restriction of the number of devices for HDCP repetition of the source device, and the quality of the cable.

Projector Blending Tool 3 (Application)

Capable of projecting smooth blended images using up to 12 projectors with an external camera unit.

* The application can be downloaded from the website (<https://proj.maxell.co.jp/en/>).

* This figure is not drawn to scale.

Multi Screen Mode

When projecting the screens of multiple projectors side by side or edge blending, this function allows to reduce differences of color tone and brightness between them.

360° Projection

The projector provides great installation flexibility as it can be installed at various angles. By rotating the projector 90 degrees, you can project vertically long images (Portrait Projection).

* When the ultra long throw lens UL-705 is attached, the projector cannot be installed facing its projection lens upward or downward.

Auto Power ON *7

The projector power can be turned on to display the input image automatically when the input signal comes from connected devices.

*7 Supported input terminals are COMPUTER IN, HDMI®2, and VIDEO. This function is unavailable when STANDBY MODE is set to NETWORK (NOL) or SAVING. This function may work unintentionally by connected external devices.

Interchangeable Lenses Options *Local availability may be limited.

Lens type		Zoom ratio	Throw ratio	Screen size (Diagonal)	Weight	Lens shift		
						Up / Down	Left / Right	
	FL-720	Ultra short throw fixed lens	1.0	0.38	100"~350"	3.1 kg*8	+82% ~ +88%	-5% ~ +5%
	USL-701	Ultra short throw lens	1.3	0.74~0.98	60"~600"	1.8 kg	-16.7% ~ +52.5%	-10% ~ +10%
	FL-701	Fixed short throw lens	1.0	0.8	30"~600"	1.1 kg	-6.9% ~ +6.9%	-4.3% ~ +4.3%
	SL-712	Short throw lens	1.5	1.2~1.8	30"~600"	0.7 kg	-16.7% ~ +52.5%	-10% ~ +10%
	ML-713	Middle throw lens	1.7	1.7~3.0	30"~600"	0.9 kg	-16.7% ~ +56.5%	-10% ~ +10%
	LL-704	Long throw lens	1.7	2.8~4.9	30"~600"	1.5 kg	-16.7% ~ +52.5%	-10% ~ +10%
	UL-705	Ultra long throw lens	1.7	4.9~8.3	30"~600"	1.6 kg	-16.7% ~ +52.5%	-10% ~ +10%

*8 Excluding support metal.

Lens shift area

The motorized lens shift lets you choose a more convenient installation location, even for large spaces.

* This figure shows the lens shift range for the projector with the optional lens ML-713 at the ceiling mounting position. * This figure is not drawn to scale.

Other Functions

[Network] : Projector Control, Easy Scheduling Setting, Network presentation [Installability] : Perfect Fit, Instant Stack [Security] : PIN lock, Key lock [Usability] : Auto Power On, Direct Power On / Off, Magnify, PnP / PinP, Remote ID, Quick Start, DICOM® Simulation Mode*9

*9 This projector is not a medical device and is not compliant with the DICOM® standard, and neither the projector nor the DICOM® Simulation Mode should be used for medical diagnosis.
